

Bio-PAT

### Cooperation Network

in the field of bioprocess analytics  
and control for improved characterization  
of bioprocesses in various industries  
and application fields.

### Bio-PAT e.V.

Registered non-profit Association

#### Chair of the Board

Prof. Dr. Peter Neubauer

#### Executive

Dr.-Ing. Anika Bockisch

#### Office

Ackerstraße 76, c/o TU Berlin ACK24,  
13355 Berlin

#### Contact

Phone: +49 (0)30-314 72190

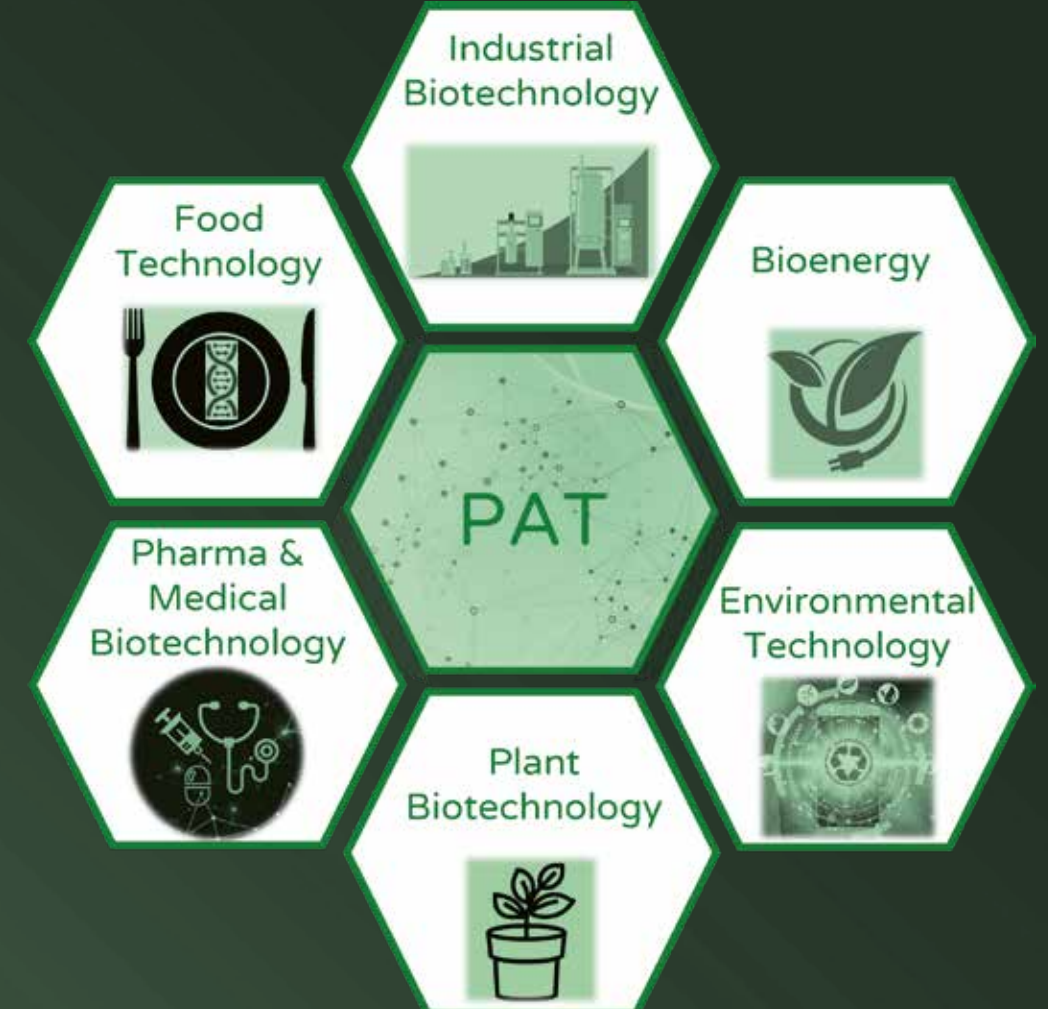

Web: [www.bio-pat.org](http://www.bio-pat.org)

#### Supported by

Senatsverwaltung  
für Wirtschaft, Energie  
und Betriebe

**BERLIN**

## AIM

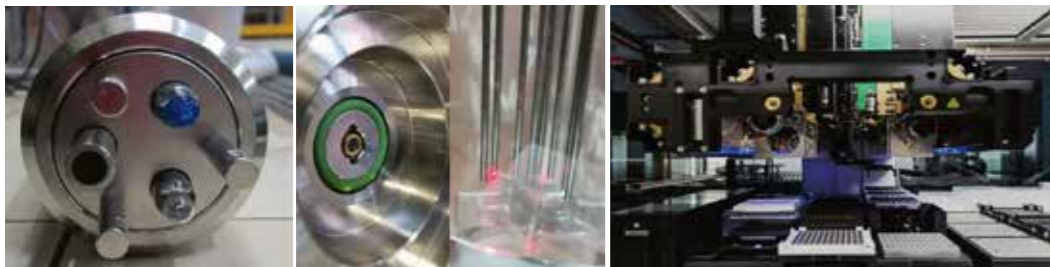

Support of any cooperation between SME, research institutes, and major enterprises with a focus on PAT in bioprocesses.

Increasing the visibility, innovation power, and product portfolio of SME.

Bundling competencies by interdisciplinary consortium:

- Sensor technology & bioprocess monitoring
- Bioreactor and process design
- Process automation, digitization & digitalization
- Microelectronics & IT
- cultivation, fermentation methods and optimization

Development of analytical methods for improved bioprocess characterization in various application fields.

## Members Bio-PAT

## SERVICES

Support in:

- Connecting suppliers and users of PAT in bioprocesses
- Preparing, coordinating, and conducting mutual research projects and marketing activities
- Knowledge and technology transfer
- Attending and presenting at fairs, conferences, congresses
- Organizing events (seminars, workshops, symposia)
- Integrating members into teaching in the field of PAT in bioprocesses and connect them to students / future employees

Representation on the network home-page and in social media.  
Supply of an internal communication platform.
