

Newsletter Bio-PAT No. 17, February 2024

Watch the newsletter in the [Browser View](#).

Dear reader, with this newsletter we send you actual news of the network Bio-PAT and its members.

Join the Bio-PAT Forum: A partnering event for bioprocessing and process analytics on March 06th-08th, 2024 online (free of charge).

Use the event for networking, gaining insights into new technologies in the field of bioprocessing and PAT, meeting new partners and building up cooperations!

Highlights:

■ 06.03.24:

- Talks by members of the network [Bio-PAT e.V.](#), presenting their competencies, products, services and cooperation options

■ 07.03.24:

- Keynote talk of Dr. M. Nicolas Cruz B. (head of [KIWI-biolab](#)): "Integrating PAT in High Throughput Bioprocess Development"

- 5 min pitches of participating companies / institutions -> Reserve your spot by sending your title, presenter and organisation to info@bio-pat.org

06.03.-08.03.24:

- 1:1 Meetings -> Meet whoever you want to network, cooperate or exchange ideas with

Have a glance on the **program** ➡ <https://bio-pat-forum.ascrion.com/program>

and make sure to **register** -> **free participation** ➡ <https://bio-pat-forum.ascrion.com/app/register>

BHT Berliner Hochschule für Technik

BHT: New Research Consortium **IMPACT** (Oct. 2023)

At [Berliner Hochschule für Technik \(BHT\)](https://www.bht-berlin.de) the research consortium [IMPACT](https://www.impact-berlin.de) (Interaction, Metabolism, Purification, Analytics, Co-Culture and Target-specific Drug-Design) was launched. The goal of the interdisciplinary team is the characterization & production of bioactive substances and analysis of communities of living cells.

BlueSens introduces students to bioprocesses

BlueSens: Cooperation with school (03.01.2024)

[BlueSens gas sensor GmbH](https://www.bluesens.com) is partnering up with "Städtisches Gymnasium Herten" as part of the IHK „Partnership School-Company“ project. This collaboration is all about giving students a real-world glimpse into sensor technology and bioprocesses. Both have been working together on career guidance for years.

KNAUER

KNAUER: New payment methods (19.01.2024)

Ordering your favorite products of [KNAUER Wissenschaftliche Geräte GmbH](https://www.knauer.com) is easier. KNAUER recently announced that you can now enjoy transactions with Credit Card, Apple Pay, and Google Pay from all over the world. Learn more about KNAUER's liquid chromatography product portfolio on the [website](https://www.knauer.com).

KNAUER: Founder Herbert Knauer

Willkommen Prof. Dr. Peter Neubauer als neues Mitglied im erweiterten Vorstand

prozessanalytik

Institut für Biotechnologie
Technische Universität Berlin
Bioverfahrenstechnik

Prof. Neubauer: member of the

FyoniBio gets CIR (Research Tax Credit)

FyoniBio with BioLamina & Alder

passed away (23.01.2024)

The management of [KNAUER Wissenschaftliche Geräte GmbH](#) sadly announced that the founder Herbert KNAUER died at the age of 92 on January 18th. With his passion for chemistry and many ideas for high-tech laboratory measuring instruments, he enriched the global laboratory industry and created the successful company.

Upcoming Events in February & March 2024

KNAUER at Macromolecular Colloquium Freiburg 26.02.-27.02.2024

[KNAUER Wissenschaftliche Geräte GmbH](#) will exhibit at the the Macromolecular Colloquium Freiburg ([MAKRO 2024](#)). Get in touch and discuss solutions with the colleagues Dr. Christian Schmidt and Can Neis.

[Read more](#)

BlueSens at 7th Bioprocessing Days in Recklinghausen 26.02.-28.02.2024

[BlueSens gas sensor GmbH](#) will be sponsor and will lead workshop no. 4 with the topic: "Easy process control without programming – the key role of soft sensors" at the 7th [Bioprocessing Days](#) in Recklingshausen.

[Read more](#)

BlueSens at BakingTECH in Chicago 26.02.-29.02.2024

[BlueSens gas sensor GmbH](#) will exhibit at [BakingTech 2024](#), showcasing the YeastForce device. Meet the team at Table 423 to ask anything about the gas analyzer and how it improves your lab work.

8th BioProScale Symposium 2024

April 9-11, 2024 – Berlin

BioProScale
DEVELOP · IMPROVE · SUSTAIN

Join the 8th BioProScale Symposium in April 2024 in Berlin! Scaling Down and Up of Bioprocesses: Strategies, Tools and Process Performance

The BioProScale Symposium is an event on industrial scale bioprocessing with a long scientific tradition. Target groups are experts from research & development and industrial practice in bioprocessing of pharmaceuticals, food, feed and renewables.

Topics:

- Scale up and industrial scale processes
- Bioprocess scale down
- Process-driven cell performance
- Integrated bioprocesses
- Process analytical technologies (PAT)

Beside a wide range of exciting lectures and interesting posters there is the possibility to exhibit at the symposium. [Information for exhibitors & sponsors](#).

The [Call for Papers](#) for posters is open until 29.02.2024!
