

Bio-PAT Network

Advancing Process
Analytical Technologies
in Bioprocesses

Collaboration

Connecting SMEs, research institutions, and industry to foster interdisciplinary exchange and joint projects.

Innovation

Accelerating the development of PAT by linking technology providers with real-world users.

Impact

Enhancing members' visibility, PAT portfolios, and access to new markets to strengthen the Mittelstand.

About Bio-PAT e.V.

We are a pioneering cooperation network advancing the research, development, and implementation of Process Analytical Technology (PAT) in bioprocesses across fields including industrial biotechnology, pharmaceuticals, nutrition, environmental technology, and bioenergy.

Our Members – PAT Users, Developers & Innovators

Abacus Analytical Systems GmbH

ANiMOX GmbH

Art Fiber Systems GmbH

ATB (Leibniz-Institut für Agrartechnik und
Bioökonomie e.V.)

Berliner Hochschule für Technik

Technische Universität Berlin

BlueMethano GmbH

BlueSens gas sensor GmbH

Celltainer Biosolutions GmbH

Chauvin Arnoux Indatech

Enpresso GmbH

FyoniBio GmbH

foom GmbH

Hellma GmbH & Co. KG

KNAUER Wissenschaftliche Geräte GmbH

Knick Elektronische Messgeräte GmbH &
Co. KG

PDW Analytics GmbH

SOPAT GmbH

Universität Potsdam

Versuchs- und Lehranstalt für Brauerei in
Berlin e.V.

Supported since 2019 by the German Federal Government and the State of Berlin through the programme "Improvement of the Regional Economic Structure".
